Seeking a 6-month mechanical engineering assistant internship (4th year) starting 24/08/2026

Education

University of Technology of Compiègne — Compiègne, France

Working towards the French engineering degree in mechanical engineering

Integrated preparatory cycle [GPA: 3.74/5]

09/2023 – 07/2025

First year of the engineering cycle [GPA: 4.26/5]

09/2025 – 07/2028

- Coursework: mechanical analysis and design (strength of materials, statics, fluid mechanics), CAD, programming, electronics and microcontrollers, mathematics (linear algebra, calculus), design, geometrical optics, electrical machines.

Lycée Français de Shanghai — Shanghai, China

French Baccalauréat — highest honours (Mention Très Bien)

09/2020 – 07/2023

- Specialisms: mathematics, physics and chemistry.

Experience

Zhejiang Ruicheng New Materials Co., Ltd. — Zhejiang, China

Factory internship

07/2024 – 08/2024

- Rotated through the logistics department, the R&D laboratory and the hydrolysis workshop of a chemical company.
- Gained a concrete understanding of industrial organisation and production processes, taking an active part in technical work on the shop floor.

Projects

UTC — Drone Club • Compiègne, France

Member

02/2026 – present

- Designed sub-systems in Fusion 360 and 3D-printed them for the fixed-wing drone prototype the club is building.
- Contributed to the design of the on-board electronics (Pixhawk, Arduino).

UTC — University project: SemiTeach inverter • Compiègne, France

Supervised individual project

02/2026 – present

- Built a teaching-lab rig for studying the operation and control of a SemiTeach inverter (Semikron).
- Developed the control system in C through PLECS.

UTC — University project: cheese-wheel turner • Compiègne, France

Project in a pair

02/2026 – present

- Complete design of a manual cheese-wheel turner: functional analysis, mechanical sizing and CAD modelling in PTC Creo Parametric.

Skills & Interests

CAD & CAM: Creo (intermediate), Fusion 360 (intermediate), G-code (basics)

Programming: Python (intermediate), HTML/CSS (intermediate), SQL (intermediate), HC12 assembly (intermediate), C (basics), Java (basics), PHP (basics)

Languages: French C2 (native), Mandarin C2 (native), English B2 (upper intermediate), Japanese A1, Spanish A1

Interests: Mechanical analysis, embedded electronics, programming, artificial intelligence
